

CLAIMS

1. An artificial Christmas tree comprising:
 - a. a trunk having an air passageway formed therein;
 - b. a series of Christmas tree branches adapted to extend from the trunk;
and
 - c. a fragrance source associated with the Christmas tree for emitting a fragrance.
2. The artificial Christmas tree of claim 1 further including diffuser to move air across the fragrance source.
3. The artificial Christmas tree of claim 2 wherein the diffuser comprises a fan.
4. The artificial Christmas tree of claim 2 wherein the diffuser comprises a heat source.
5. The artificial Christmas tree of claim 2 where at least a portion of the diffuser is disposed within the trunk of the artificial Christmas tree.
6. The artificial Christmas tree of claim 5 wherein the diffuser is disposed within an upper portion of the trunk.
7. The artificial Christmas tree of claim 1 wherein the fragrance source includes a container having a fragrance contained therein.
8. The artificial Christmas tree of claim 7 where the container includes one or more openings and the fragrance comprises a fragrance block.
9. The artificial Christmas tree of claim 1 wherein the fragrance source is disposed within the artificial Christmas tree.

10. A method of generating a fragrance for an artificial Christmas tree having a trunk and branches extending therefrom comprising: associating a fragrance source with the artificial Christmas tree and emitting a fragrance from the source such that the fragrance imparts a scent about the artificial Christmas tree.

11. The method of claim 10 comprising directing air across the fragrance source to emit a fragrance from the artificial Christmas tree.

12. The method of claim 11 wherein directing air across the fragrance source comprises locating a fan within a portion of the artificial Christmas tree and directing air from the fan across the fragrance source.

13. The method of claim 12 comprising locating the fan within the trunk of the artificial Christmas tree.

14. The method of claim 11 further comprising locating a heater within at least a portion of the trunk and directing air heated by the heating source across the fragrance source.'

15. The method of claim 11 wherein associating a fragrance source with the artificial Christmas tree comprises locating a fragrance container within or adjacent the artificial Christmas tree, said fragrance container having a fragrance contained therein.

16. The method of claim 15 further comprising replacing the fragrance source by refilling the fragrance container with fragrance.
